

THE RING OF BELLS

CASE STUDY

ATC RIVIERA OUTDOOR HEATER

"We wanted to keep the outdoor garden area going all year to help mitigate the impact of the Covid-19 restrictions, which has limited the number of people who can be inside the pub at any one time. The ATC Riviera allows us to do that"

- Matt Harvey, Owner

ATC RIVIERA OUTDOOR HEATER - THE RING OF BELLS

CLIENT REQUIREMENTS

One of Taunton's most popular pubs will be welcoming customers to its garden throughout the autumn and winter.

The Ring of Bells has just installed a marquee to keep punters using the outdoor area dry and warm over the coming months.

Owner Matt Harvey worked with **SJS Electrical** and **JJL Electrical Solutions** of Bridgwater to transform this outdoor area.

They chose the ATC Riviera Outdoor Heater to keep the area well heated for staff and patrons alike.

PRODUCT CRITERIA

- Weatherproof outdoor heating solution
- High performance with instant heat
- Energy efficient to reduce running costs
- Attractive design
- Easy to install and maintain

PRODUCT EVALUATED & CHOSEN
