

## Integral LED Introduces the New Tough Shell Pro Bulkhead Range: Innovation in Modular Lighting Solutions

Integral LED is excited to announce the launch of its latest advance in lighting technology, the Tough Shell Pro Bulkhead range. Engineered for excellence, this new series of bulkheads boasts a modular design with a variety of accessories aimed at enhancing both aesthetics and functionality, catering to a wide range of lighting needs.

Delivering an impressive energy efficiency of 120lm/W, the Tough Shell Pro proves bright, consistent and customisable illumination while significantly reducing energy consumption.

### Versatile and Upgradable Design

The Tough Shell Pro is designed with versatility in mind, offering plug & play modules that include emergency lighting, microwave sensors and corridor function capabilities. These accessories allow users to upgrade and customise their lighting solutions effortlessly, ensuring optimal performance and adaptability for various environments.

Three power switching options (8W, 12W, and 16W) and switchable correlated colour temperature (3000K, 4000K, 6000K) offer further customisation to meet specific lighting requirements, while the range also features 9 bezel accessories in varying colours and styles to ensure the Tough Shell Pro matches the appearance of any project.

### **Robust and Durable**

Constructed with a durable polycarbonate body, the Tough Shell Pro is both IP66 and IK10 rated, ensuring it is resistant to dust, water, and significant impact. The lockable anti-vandal diffuser adds an extra layer of security, making these bulkheads ideal for use in public and high-traffic areas.

Integral LED stands by the quality and reliability of its products, offering a 5-year warranty on the Tough Shell Pro Bulkhead range.

The Tough Shell Pro range is available now and can be explored in detail on our website:
