REF. PARTS

HOW TO OPERATE AND INSTALL

Necessary parts are provided in the box for installation. The light can be mounted to ground or wall. Please check below illustration.

Figure 1

- Insert the stake into the socket.
- Stake the light into ground where it can receive the best sunlight, adjust the light to your desired direction.

- 13 -

Figure 2

- Find a wall position where it can receive the best sunlight. Screw the socket to the wall.

HOW IT WORKS

- Solar panel collects sunlight to charge the battery (included) during the day.
- Automatically turns on at dusk for night time illumination.

- 14 -

MODE SETTING

Reset: switch the button ON-OFF-ON-OFF-ON until it's blinking rapidly.

IMPORTANT SAFETY OPERATING INSTRUCTIONS

1. Please read all warning and instruction labels which are included in the box and fixture to avoid personal injury, property damage caused by fire, cuts, bruises, death and other dangers.
2. Please follow these general precautions before installing, maintaining, or fixing.

WARNING

1. The packing contains small parts that could be swallowed by children.
2. Keep the packaging material away from children and pets.
3. The solar light is not a toy.
4. We do not take responsibility if the instruction manual is not followed correctly or if the product is handled improperly resulting in damage to person or property.

PRECAUTION

1. It is important to select an outdoor location with full direct sunlight where the solar panel can receive at least 6 hours of sunlight each day.
2. It is important to avoid placing the solar light by light sources, such as street lights or porch lights, which may cause the solar light to turn off automatically.
3. To avoid explosion and corrosion, please keep the solar light away from fire and humid environment.
4. No striking to avoid any damages to solar cell.
