1

Cabinet Wrench Key - 8 in 1

Greater ergonomics, comfort and accessibility for users, without sacrificing versatility. Suitable for electrical, gas and water cabinet closures, it offers users the versatility of two 360° rotating key heads, incorporating double functionality. The double-joint design improves ergonomics over standard keys, allowing users to transform the key into a T handle for high-torque applications. With a compact profile manufactured from durable glass reinforced polymer, users will welcome the additional comfort, when in use or when carried in a pocket.
