

Economical panel, easy solution

START eco Panel

START eco Panel is a highly cost effective range of recessed and suspended panels for general indoor lighting applications such as breakout areas, offices and meetings rooms. The range includes 600 x 600mm and 1200 x 300mm modules.

START eco Panel brings energy savings with efficacy of up to 89lm/W.

The optical design ensures a consistent uniform output through the luminaire creating a comforting, non-hard light source.

START eco Panel

Features

- An economic version with efficacy of up to 89lm/W
- Slim size with width of 34mm (with driver 64mm)
- Delivers up to 3200 lumen
