Built with electricians and network professionals in mind

PT-E110

Ensuring compliance with electrical regulations (IET 18th edition) is critical for electrical installers/contractors. The P-touch E110 prints on durable labels ideal for identification of plug and switch faceplates, cables, conduits and consumer units. Common labelling tasks can be completed easily thanks to the dedicated quick-access buttons and the standard PC QWERTY keyboard layout. With 200 symbols to choose from several categories including electrical, datacomms and audio/video, the PT-E110 lets you customise your labels quickly using the easy-to-read graphic LCD.

For installations requiring numerical identification, a dedicated numeric keypad enables quick one-finger typing, and the serialise function automatically increments label numbers (e.g. A001, A002, A003) for efficient multi-label printing.

The PT-E110 is available as a value pack (PT-E110VP), which also includes an AC adaptor and a TZe tape, all housed in a durable carry case.

Key features:

- 20mm/second print speed
- Graphic LCD display
- Quick-access buttons for common labelling tasks
- Dedicated number keypad for quick input
- Easy-clean keyboard with familiar PC layout for fast text entry
- Powered by 6 x AAA alkaline batteries or AC adaptor
- Manual tape cutter
- Uses TZe tape cassettes up to 12mm in width
- 200 symbols including electrical, datacom, audio video and other categories
- PT-E110 includes: 12mm black on white standard TZe tape (4m)
- PT-E110VP includes: 9mm black on white Flexible-ID tape (8m), AC adaptor, hard carry case
