Earth rod pro bit

The LINIAN Earth Rod Pro Bit is suitable for use with/in Lightning Protection, 5G, EV charging, Outdoor domestic applications, Remote and Rural applications as well as Substations.

Cleat Size Equivalent (Consult cable manufacturer for further guidance):
N/A

- For rapid Earth Rod installation
- Threads onto any standard earth rod
- Bores through hard top layers and underground rock
- Quality Standard: All parts produced in the UK, compliant with ISO 901:2015
- Perfect compatibility of 5/8" BSW threads with copper earth rods
- Displaces ground material around instead of removing, providing solid connection
- The shaft is easily removed using a spanner 17mm allowing for additional rods to be connected or earth connection to be made.

Part No	1LERPB
GTIN	5060552870570

General Information

Material	Steel
Cleat Size Equivalent (Consult cable manufacturer for further guidance)	N/A
Country of Manufacture	Made In Britain

Packaging Information

Recycling	Recyclable
------------------	------------

Source of packaging material

UK sourced
