

5 Pole, 3 Way IP68 'T' & Inline Connectors

QOE3052BLK
5 Pole 2 Way 24A IP68 Inline Connector

QOE3053BLK
5 Pole 3 Way 24A IP68 T-Connector

Tough Nylon Body

High quality and robust materials help ensure the connectors withstand the harshest of environments. Whatever the installation, your cables will be fully secure.

5 Pole Terminals

The 'T' and Inline Connectors are supplied with 5 pole terminals. This provides the installer with a variety of wiring options, covering a large range of installations.

IP68 'T' Connector

The 'T' shape connector facilitates the install of an inline switch or additional powered output whilst also offering IP68 weatherproof protection, making it perfect for multiple installations.

IP68 Inline Connector

A quick and simple solution for outdoor and underwater fixtures. Suitable for extending or repairing existing cables while maintaining its IP68 weatherproof protection.
