

GRIDSWITCH

Deta Gridswitch offers multi-switching, control and monitoring, providing a flexible and cost-effective switching management solution for the most demanding projects.

Frontplates are available in a choice of finishes to match **Deta's Slimline, Slimline Screwless, Slimline Décor, Ultra Flatplate, Ultra Screwless** and **Metalclad** ranges. With elegantly curved rockers and frontplates available from 1 gang up to 24 gang sizes, **Gridswitch** offers a versatile solution for any commercial, industrial or domestic application.

Products in the **Gridswitch** range are guaranteed for 25 years (2 years for electronic products).

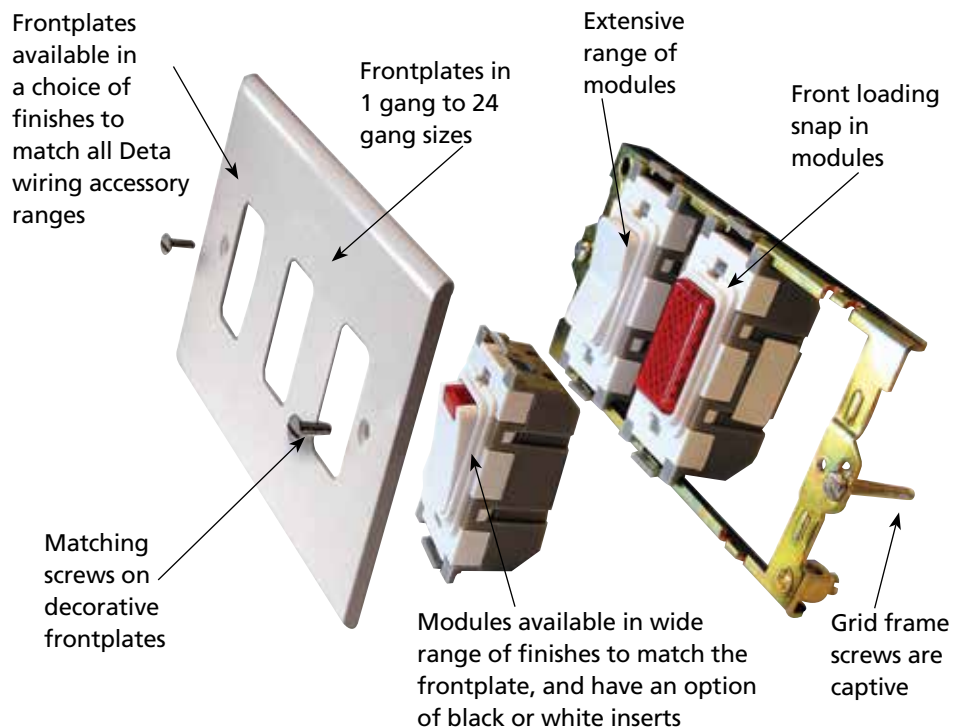

PRODUCT FEATURES

Deta offers a wealth of features across the **Det**a Gridswitch range to ensure that installation is carried out with the minimum of effort.

All modules have clear terminal markings and are front loading so they simply clip in place, which means they can easily be upgraded or replaced without the need to remove the mounting grid frame.

For larger frontplates, **Det**a back boxes have been designed deeper for ample wiring room, for example the back box for a 24 gang plate is 60mm deep.
