

Push Button Time Lag Switches

**NO
NEUTRAL**

ELLIPSE-TN

Push button time lag switch with neon indicator.

Direct replacement for an existing light switch, making it a quick and inexpensive unit to install.

The large push button makes it an ideal replacement for mechanical or pneumatic time lag switches.

The ELLIPSE-TN has a neon indicator to locate the switch in the dark.

Features

-  Adjustable timer
-  Works with any type of lamp
