

MICC Products

Sealing Compound

For filling cavities and making air-tight and watertight joints, especially in electrical equipment to exclude moisture.

Part No.	Pack Size
RMX	100g

Type: Non oxidizing resin/oil based compound suitably filled with inert mineral fillers.

Appearance: Grey putty-like finish.

Consistency: Putty-like.

Flash Point: Minimum 200°C

Temp. Range: 150°C continuous

Breakdown Strength: When tested in a cell with a 4mm gap at 18°C the compound withstood 25kV for 1 minute.

MICC Tooling

ZSJ - "JOI Stripper"

For stripping cable sheath for cables 2L1.0, 2L1.5, 2L2.5, 3L1.0, 3L1.5, 4L1.0, 4L1.5

ZSJB

Replacement blade for ZSJ

ZPM20

For screwing pots onto cables

ZDC20

For crimping stub caps into pots

ZR

Ringing tool for cutting cable neatly
