

# Cable Jointing Accessories

## Underground Marking Tape

Damaging a buried utility line is an expensive accident which could have serious consequences. Installed 300mm above the buried pipe or cable, these tapes provide an early warning to contractors.

Part No.	Length (m)	Width (mm)	Colour	Tape description
UMT-EL	365	150	Yellow	Electrical Cable Below
UMT-STL	365	150	Yellow	Street Lighting Cable Below
UMT-TEL	365	150	Green	Telephone Cable Below

Other types and languages available to order.

## Cable Protection Tiles

Heavy duty, yet lightweight recycled polyethylene cable covers, incorporating a colour printed polyethylene warning tape laminated to the top surface. The environmentally friendly cable tiles should be laid over power cables which require additional protection.

- High impact resistance – manufactured to BS 2484
- Free from PVC – acid and alkali resistant
- Rot resistant
- Lightweight, meaning low transportation and installation costs
- All cable covers are pre-drilled and supplied with a jointing peg for easy installation. The linear length when joined is approximately 960mm
- Wording 'CAUTION ELECTRIC CABLE BELOW'

Other texts can be manufactured to order.

Part No.	Length (mm)	Width (mm)	Thickness (mm)
UMCT150	1000	150	6

Barrier and Hazard Warning Tape also available. See Tapes and Sealants page 193.
