

# Installation Instructions

## WARNING

1. Do not insert smart plug into another smart plug.
2. Do not cover the smart plug when in use.
3. The power is disconnected only when the plug is withdrawn from an electrical outlet.
4. Intended for dry location use only.
5. The smart plug should be placed near the appliance and easily accessible to user.
6. Do not open the product.
7. Prior to using, ensure the smart plug is not damaged. Do not plug into socket if the casing is damaged in any way.
8. Please take the technical parameters (in particular the maximum permissible switching capacity of the relay and the type of load to be connected) into account before connecting a load! All load data relates to resistive loads! Do not exceed the capacity specified for the device. Exceeding this capacity could lead to the destruction of the device, to a fire or to an electrical accident. The reliable switching off of the connected device is not guaranteed anymore.
9. Do not connect any appliances which could cause fire or other damage if switched on inadvertently (e.g. irons, power tools).
10. Do not use plugs to disconnect appliances from the mains. The load is not galvanically isolated from the mains.
11. Do not use this product near water, for example near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.

Product	Smart plug
Reference	9290024278
Rated voltage	240 V- 50 Hz
Rated current (MAX)	13 A (resistive load, power factor $\geq 0.9$ )
IP level	IP20
Ambient temperature	-5 °C to + 40 °C
Relay	Normally open, 1-pole, $\mu$ contact
Rated impulse withstand voltage (Overvoltage category)	4000 V (Category III)
Software class	Class A

## Symbols explanation

Waste Electrical and Electronic Equipment. 2012/19/EU  
This product must be disposed of at a designated collection point for Electrical and Electronic waste. For more information, contact your local city office or the shop where you purchased the product.

Indoor use only

Conformity with all relevant EU Directive requirements.

## Maintenance and care

1. The product is maintenance-free. Repairs should only be performed by qualified persons. Clean the product with a soft clean dry and lint-free cloth after removing the plug from the electrical outlet. Do not use cleaning agents containing solvents.
2. Incorrect handling or non-observance of hazard warnings may compromise the protection afforded by the device.

Wireless RF mode Frequency Range: 2400-2483.5 MHz  
Maximum transmitted power: 20 dBm  
Operating channels Wi-Fi: 13/9 channels
