

**IWH660- WIRE HANGER**

**Description:**

Steel Wire hanger designed for light duty suspension of services from concrete ceilings using wire or strap hangers.

**Material:**

Steel

**Additional Notes:**

This item comes in one size which is 60mm.

**OTHER ADDITIONAL INFORMATION**

**USAGE**

Our Wire Hangers are specifically designed for the light duty suspension of services from concrete ceilings using wire or strap hangers. Applications include cable tray, ductwork, electrical trunking and lighting, suspended ceilings and pipework. Although traditionally used for vertical suspension they may be used at angles up to 30° from the vertical for suspension using adjustable wire rope systems. Punched banding and right angle strapping can be bolted using M6 machine screws.

**TECHNICAL FEATURES**

Carbon steel zinc plated body with chromate passivation.  
 Three segment carbon steel expander clip for even expansion pressure.  
 6.5mm diameter eye in flat pressed section for bolting strap with M6 machine screws.

Follow up expansion feature ensures automatic setting

**ADVANTAGES**

- Quick and easy installation
- Reliable setting
- High load capacity

RECOMMENDED TENSILE LOAD - Kn	
CONCRETE 26N/mm2	1.3
