

Viso

Black eyelid trim for Viso bulkhead

Kosnic's IP65 LED bulkhead is perfect for Kosnic's K2D standard and sensor LED lamps. The bulkhead includes an emergency option and offers a low maintenance and robust solution to lighting in all areas where a practical lighting solution is required. The standard bulkhead can be used as a utility style bulkhead without a trim or can be enhanced with one of the two decorative trims to give a higher aesthetic appeal where required.
