| Technical data            |                   |
|---------------------------|-------------------|
| Dimensions                | 395x121.5x183.5   |
| Frequency                 | 50Hz              |
| Protection degree         | IP66/IP67         |
| Poles                     | 3P+N+ $\text{PE}$ |
| Clock Position            | 6                 |
| Nominal Operating Voltage | 400V~             |
| Insulating Voltage        | 690V              |
| Manufacturing Material    | Thermoplastic     |
| Width                     | 121,5 MM          |
| Nominal current           | 32A               |
| Execution                 | WALL MOUNTING     |
| Protection                | Differential      |
| Insulation Class          | II                |
