

## MCBs Type B

- Single pole miniature circuit breaker
- Type B tripping curve
- 6kA rating
- 1 module width
- In compliance with IEC 60898-1

B1206	6A 6kA
B1210	10A 6kA
B1216	16A 6kA
B1220	20A 6kA
B1232	32A 6kA
B1240	40A 6kA
B1245	45A 6kA
B1250	50A 6kA
B1263	63A 6kA

B1216

## RCBOs Type B

- Double pole residual current circuit breaker with overload protection
- 30mA tripping current
- Type B tripping curve
- 1 module width
- In compliance with IEC 61009-1

B1506	6A 30mA 6kA
B1516	16A 30mA 6kA
B1520	20A 30mA 6kA
B1525	25A 30mA 6kA
B1532	32A 30mA 6kA
B1540	40A 30mA 6kA
B1550	50A 30mA 6kA

## RCDs

- Type AC RCDs provide protection for general purpose applications
- Type A RCDs provide protection for general purpose applications as well as those incorporating equipment with electronic components
- 30mA tripping current
- Double pole
- 2 module width
- In compliance with IEC 61008-1

### Type AC

B1606	63A 30mA
B1607	80A 30mA
B1608	100A 30mA

### Type A

B1622	100A 30mA
