PART OF THE
SCREWDRIVING
BY **armeg**™
RANGE

Armeg's time saving and problem solving screwdriver bit sets & accessories are the perfect addition to any tool kit. The range includes smarter screwdriving solutions such as the 'Click & Drive Adaptor' and 'AAA ratchet', whilst nearly all sets feature impact rated screwdriver bits for use within impact drivers. This smarter screwdriver bit range is the perfect choice for the professional tradesman.

TWISTER™
IMPACT RATED

Twister Drill Bits are

Ⓢ MADE IN SHEFFIELD

using a 1 piece body construction with high quality alloy steel for durability and strength

15 PIECE MASONRY FIXING INSTALLATION SET

Featuring Twister impact rated screwdriver bits and drill bits, this is the perfect set for the professional tradesman using an impact driver.

With both the Twister screwdriver bits and drill bits being designed with a ¼" shank, the tools can be interchanged rapidly in the same power tool for the ultimate convenience.

The 15 piece set comes complete in a handy fabric roll with contents and sizes printed for easy tool identification.

TECH TIP!
Our Twister Impact Rated Masonry Drill Bits are available separately as top-up items for your set. For range details – see page 25

14 PIECE IMPACT RATED SCREWDRIVER BIT SET

The 14 Piece Set features ¼" shank Twister impact rated screwdriver bits, perfect for direct use within impact drivers.

The bits feature a 'Torsion Portion' section which is designed with a reduced diameter. The reduced diameter allows the bits to temporarily flex under high torque loads, reducing stress at the tip and protecting from damage. This results in the bits providing up to 133% increased flex over a standard bit for extreme durability.
