

165 i PZ/S SB VDE Insulated screwdriver for PlusMinus screws (Pozidriv/slotted), #  
1 x 80 mm  
Kraftform Plus – Series 100 VDE

<b>EAN:</b>	4013288186584	<b>Size:</b>	235x50x30 mm
<b>Part number:</b>	05100021001	<b>Weight:</b>	67 g
<b>Article number:</b>	165 i PZ/S SB	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Insulated blades for secure work at 1,000 volts
- Smooth hard zones for high speed turning, soft grip zones for high torque transfer
- Handle markings simplify finding and sorting of tools
- Hexagonal anti-roll feature against rolling away
- Combination profile Phillips / slotted

**Application:**For PlusMinus screws (Pozidriv/slotted)

**Blade:**Insulated, individually tested as per IEC 60900

**Design:**PlusMinus (Pozidriv/slotted)

**Handle:**Kraftform with non-roll feature, multi-component

**165 i PZ/S SB VDE Insulated screwdriver for PlusMinus screws (Pozidriv/slotted), # 1 x 80 mm**  
**Kraftform Plus – Series 100 VDE**

**Set contents:**

**165 i PZ/S VDE Insulated screwdriver for PlusMinus screws (Pozidriv/slotted), # 1 x 80 mm**

 05006190001 1x # 1 x 80 mm

**PlusMinus screwdrivers**

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

For the use in terminal blocks, control cabinets, switches, relays, sockets etc.

**Individually tested**

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

**Impact strength test**

Impact strength tested at -40°C, guaranteeing safety even under extreme conditions.

**Multicomponent Kraftform handle**

Wera produces the Kraftform handle out of several materials with different properties. A resistant plastic is used for the core which ensures that the blade is held securely even under high strain. A softer material is used for the coloured soft zones, which provides high frictional resistance and allows the transfer of high forces - resulting in less required screwdriving effort. The red sections with their hard surfaces prevent any "sticking" of the hand to the handle, making rapid repositioning of the hand possible.

**Prevents hand injuries**

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.

**Rapid hand repositioning**

The hard materials used for the handle ensure rapid hand repositioning without any danger of the skin "sticking" to the handle. The surrounding hard zones with large diameters glide like wheels across the hand.

**Identification marking**

The screw symbol and tip size identification markings on the handle make it easier to find the right screwdriver in the tool case, or at the workplace.
