## KEY FEATURES

Perfect for new installations and like-for-like replacements, this batten allows the client to choose the light level that they require during the installation process. This exciting development means that the Solray is equivalent to a 6ft Single and Twin T8/T10/T12 Fluorescent Tubes with lumen range of 9000 lumens. The flicker free operation, BESA mounting and M20 cable entry allow the unit to easily replace older fluorescent models.

## COMMERCIAL APPLICATIONS

Offices, schools, corridors, medical centres
