

TTSS200

Term Tech Stainless Steel Cable Ties 304 Grade Ball Lock Style 200mm x 4.8mm Bare (Pack of 100)

The Termination Technology TTSS range of bare Stainless Steel ties are manufactured from 304 grade material, offering a high melting point and making them ideal for 18th edition fixing compliance. Available from 150mm up to 1000mm lengths and in standard duty 4.8mm or heavy duty 7.8mm widths to provide for any situation. TTSSBU 316 grade range also available with lower melting point but higher corrosion resistance, ideal for marine applications. EVA range also available with a strong acrylic coating across a range of colours to minimise abrasion against the cables.

Technical Data

Colour and Material

Material 304 Grade Stainless Steel

Dimensions

Product Length (mm) 200
Product Width (mm) 4.6

Discernible Features

Locking Mechanism Ball Lock

Physical Attributes

Loop Tensile Strength (N) 445

Temperature and Fire Information

Continuous Operating Temperature (°C) -80 to +538
Minimum Installation Temperature (°C) -60
