The Monsoon Energysaver multi room product is a mechanical extract ventilation unit which has been designed for continuous extract of stale air from separate areas around the home or for commercial applications where a multipoint extractor system is needed, including toilets, changing rooms and cubicles. These multi room extract units have been developed so they can be installed at any angle and condensate drains are provided where the ambient air has a high humidity content.

Models available

CODE	DESCRIPTION
MON-MEV DC	Monsoon DC Multi-Room Unit (434 m ³ /h – 120 l/s)
MON-MEV DC/H	Monsoon DC Multi-Room Unit built-in Humidistat (434 m ³ /h – 120 l/s)
SPIR	PIR controller
FT1	Wired Remote Timer
