

Additional Vibrating Pillow Pad - Ei174

- An additional vibrating pillow pad for use with Aico Alarms for the deaf and hard of hearing
- Activates on receipt of an alarm signal
- Plugs directly into the strobe alarms auxillary socket
- Supplied with 5m of cable

PRODUCT DESCRIPTION

The Ei174 is an additional vibrating pillow pad designed for use with Alarms for the deaf and hard of hearing. When connected to a strobe unit the pillow pad will vibrate when an Alarm is triggered. During activation the pillow pad pulse vibrates on and off for greater effect on sleepers.

The vibrating pillow pad provides additional warning where more than one vibrating pillow pad is required.

The Ei174 comes supplied with 5m of cable and plugs into an alarm kit using the socket plug supplied (JST type VHR-2N). The Ei174 is designed to work with the following Alarms for the hearing impaired:

Ei169/160
 Ei170RF
 Ei171RF
 Ei175
 Ei176
