

Strobe Light (Red) - SAB300R

- Mains powered Strobe Red Light
- Activated by relay module
- 0.9Hz flash rate
- 3 Watt Xenon tube
- For indoor or outdoor use
- Weather protected to IP65

PRODUCT DESCRIPTION

The SAB300R is a mains powered Flashing Xenon Strobe. The Strobe connects into the Alarm system via a relay base or module such as the Ei428 or the Ei128RBU. If the Alarms trigger the relay will send out a signal that triggers the Strobe to flash at a 0.9Hz rate. The Strobe is an alarm accessory that is designed to give a visual warning if a properties alarm system has been triggered.

The strobe is weather protected to IP65 and can be used in all locations indoors and outdoors. There is a central grommet cable entry and detachable mounting base with 4 x 8mm side knockout pints.

The strobe is also available with a clear lens (SAB300C).
