DELIGO

Hi - Tec Screws

Super Multi - Purpose Screws

Hi - Tec screws have been developed by Deligo as a premium Woodscrew which due to special designs from the point, through the body to the head improves insertion speed and pull out, ideal for hard and soft wood and MDF.

Point

- Double cutting point
- Type 17 Point reduces splitting and improves start time

Body

- Serrated cutting edges reduces torque for faster firmer fix
- Hardened High Spec Material provides extra holding power
- Milling / Reaming mid-section reduces torque and prevents jacking
- Improved pull out provided by a serrated cutting edge
- Wax Coated - faster and easier insertion and reduces splitting
- Deep Cut Thread

Head

- Deep punched Pozi Recess for deeper driver hold
- Improved countersinking due to 6 angled lobes under head
- Double Countersunk Neck preventing head breakage

The Electricians Range

NEW Pozi Drive Hi - Tec Screws

Code	Type	Price Per 1000	Pack Quantity	Price Per Pack
