**MS=N Internal Multi-siren**

**PRODUCT :**MS=N Internal Multi-siren

[← Read More](#)

### Which product has become obsolete?

This marketing bulletin provides information on the discontinuation of the MS=N Internal Multi-siren. The discontinuation of this product follows recent changes and updates in EN 50131 compliance regulations.

Product Code	Product Description	Status	Replacement Product	Product Description
MS=N	Internal Multi-siren	Discontinued	<a href="#">SP20ST</a>	Indoor siren

### When will the product be discontinued?

We expect this product to be discontinued, effective immediately. Any orders already placed for the MS=N will be fulfilled and thereafter once stocks are depleted all future orders placed for this product will automatically be replaced by the NEW SP20ST Indoor siren.

### Is there a replacement for this product?

The SP20ST Indoor siren replaces the MS=N and offers the following features:

- EN50131-4: 2009 Security Grade 2 Environmental Class II certified
- generates 94.4 dB at a distance of 1m
- suitable for local signalling (not valid for fire alarms)
- versatile design provides flexibility for easy installation
- integrated siren that connects directly to the bell output of any panel

**Find out more about the SP20ST Indoor siren by visiting our website or you can simply download the datasheet.**
