

Not Equivalent - Better!™

Ventcroft's Union Intruder Alarm cables are now available in two new high quality versions - both with full copper tinned conductors and manufactured in the United Kingdom.

The Pro-Supreme and Pro-Classic cable ranges are specifically designed & tailored to suit the individual performance and price requirements of contractors installing and servicing domestic & light commercial systems or high security & large commercial alarm markets requiring cabling to BS 4737 levels.

PRO-SUPREME BS 4737

High Grade Tinned Copper - Resistance Meets Requirements of BS 4737

- Conductors formed with 7 strands of top grade tinned copper
- Ensuring longer cable runs for External Sounder & Strobe Operation
- UK manufacture guarantees performance for high security & large commercial systems

Screened & LSF Types - Also Available

PRO-CLASSIC

High Grade Tinned Copper - 125 Ohms Resistance Per KM

- Conductors formed with 7 strands of top grade tinned copper
- Ideal for domestic light commercial systems - UK high quality at an economical price
- Longer Cable life & longer cable runs than Aluminium Coated Conductor Cables

NO Chinese Coated Aluminium! - Full Copper Cable Now at a Similar Cost!

Suitable for all security device levels of BS EN 50131:2010
Sheathed & Insulated with only the highest grades of PVC to EN 50363

Features

Available on 100m & 500m Reels

RoHS Lead & Tin Free Outer Sheath

Available in White and Brown

Large Range Available from Stock

4, 6, 8 and 12 core profiled cables.

All Cables Include a Strong Nylon Ripcord

Our light bunching process minimises accidental cable distress when pulling through and during cable installation fixing.
