

⚠ Important Safety Notice

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation.

All connections should be checked periodically to ensure correct tightness.

DC Load Break Switches

LB Series DC Switch Disconnects comply with the latest specifications for modern low voltage devices. Outstanding electrical characteristics of LB Switches with compact design, contribute to space saving installation and operational convenience. Basic construction and design of the switch makes it compact, safe and highly reliable. The switch uses polyamide glass filled material, having excellent track resistance (CTI) for Insulation to prevent flashover even in the most severe conditions. The special contact design and configuration makes the switch highly reliable to withstand high short circuit currents.

Applications

- Photovoltaic - Isolators
- Isolator
- Main Switch
- Emergency ON/OFF
- Inverter Applications
- AC / DC Changeover in Solar Pumps

Features

- Compact and reliable
- Finger protection
- Easy installation
- Wiping contacts
- Excellent switching and high short circuit capacity

Switching Example					

- Degree of Protection: IP66
- Switch rear mounted for easy connection
- Enclosure colour: Dark grey base and light grey cover.
- Switch mounted in ABS enclosure.
- Round padlocking device (Max.3 padlocks) to prevent the Switch from being made ON by unauthorised personnel
- Interlock Feature (Cover opens only in OFF position)
