

LED Luminaires

Lightspan

Integral Lightspan Battens provide an efficient alternative to T8 fluorescent tube fittings. At up to 7800lm, Lightspan battens are ideal for indoor commercial spaces that need bright task lighting and at up to 120lm/W they offer big energy savings compared to equivalent fluorescent fittings.

Value+ IP20 LED Battens

Integral Value+ IP20 LED Battens are perfect for work benches, shelving areas and stock rooms. At 100lm/W these LED battens are an ideal replacement for traditional fluorescent tube lights, providing energy savings over their lifetime.

The Value+ range has a white injection moulded housing and a diffuser for even light distribution. This range comes pre-wired and fixing brackets are also included for easy installation. The rear of the batten provides flexibility to hide the cable resulting in a discreet finish.

Applications: Ideal for indoor applications such as work benches, shelving areas and stock rooms.
