Link 2 Home
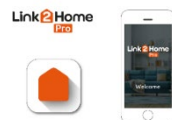

Description

The Link2Home Smart Controller for LED Flexible Strip Light connects with Link2Home LED light strips. Use with cut lengths to create additional light sources. Create ambiance, put up party lights or decorate for an event, or make your bedroom, living room, TV area, or home shine brighter. LED rope lights offer your desired length to suit your area, mood, or theme. Each pack includes the controller and the connector to use with the 10m or 5m light strips. Use with the Link2Home Driver to give units power..
