## FCCR - DRIVE OVER CABLE PROTECTOR

### Description:

**Material:** TPU (Thermoplastic Polyurethane)

**Body Size:** 250mm (width) x 45mm (depth)

**Channel Size:** 30mm x 30mm (Each Channel)

**Weight:** 4kg

### Material Details:

TPU provides a large number of physical and chemical property combinations for the most demanding applications such as automotive, wires and cables, breathable films for leisure, sports and textile coatings, weatherable, non-yellowing films etc.

It has properties between the characteristics of plastic and rubber. Thanks to its thermoplastic nature, it has several benefits other elastomers are unable to match, such as:

- Excellent tensile strength
- High elongation at break
- Good load-bearing capacity
