

# Plugs

Available in white, red, black, or grey, flex7 plugs are robust and simple to use. In-line terminals, and a pair of screws which both secure the cover and clamp the flexible cable, make it quick and easy to wire on site.

Large wiring compartment

Clearly labelled inline terminals

Strong latches ensure secure connection

4 standard colours for identification of load

Please note: Boxes of 300 are packed loose (not in boxes of 10), and can only be ordered in multiples of 300.
